

Portfolio Website  
by  
Sherin Samuel

# Design Process and Decisions

## 1. Moodboard with mostly bright colors

2. Pages on different HTML documents for animations to work

3. Usage of SVG images as they can be easily manipulated via HTML

# Challenges

1. Choosing the right colors & design.
2. Switching between grid and flexbox.
3. Making the site responsive.

## Favourite Parts

1. When I finally fixed on a design.
2. When the starry background worked!
3. When the site deployed without issues.

Thankyou!
